CAPABILITIES STATEMENT

Top-Tier Talent at the Leanest Margins.

No catch, no gimmicks, no games. Just Proven Talent.

Who We Are

- **Information Technology (IT) and Talent Services** company headquartered in Minneapolis, Minnesota.
- Staff augmentation, project-based, and deliverable-based engagements.
- Successfully serving small companies to large enterprises in the U.S. since 2020.

Core Specialties

Software Engineering

Overview:

- We extend current teams (or launch new) with AI-enabled elite technology talent who hit the ground running on contractor-based engagements.
  - Primary focus areas include **Software, Data, Cloud & Platform, DevOps, & Mobile Engineering; Product Design (UI / UX)**.
  - Part-time and full-time service levels executed on a time & materials or deliverable & outcome basis.

We help organizations by:

- Boosting development velocity.
- Rescuing projects.
- Building and implementing new products and capabilities.
- Enhancing and modernizing existing systems.
- Improving operational efficiencies.

Pass-Through Solutions

Overview:

- We facilitate **talent engagements as an employer and vendor of record** for organizations that need to quickly and smoothly onboard pre-identified key personnel on a contractor basis.

Organizations trust us to:

- Handle agreement and contract finalization quickly.
- Effectively onboard to meet regulatory and compliance standards.
- Manage payroll, invoicing, and detailed reporting.
- Provide ongoing HR and administrative support to contractor workforce.

What We Do

We help technology and business leaders get **top-tier talent and teams that effectively deliver** meaningful outcomes with the primary focus on driving **business value** and prioritizing **cost savings** — without the inflated fees and margins typical in the industry.

Core Services:
Software Engineering • Pass-Through

Supplemental Services:
